# Sign In App ®

by Sign In Solutions

The smart and safe way to sign in

Transforming safety in schools across the globe

Safer learning environments for all

- Visitor management
- Staff and student sign in
- SCR management
- Appointment scheduling

Safety + included as standard

Safety always comes first. We provide flexible tools to help our Sign In App community maintain safety for visitors, students and employees, included as standard.
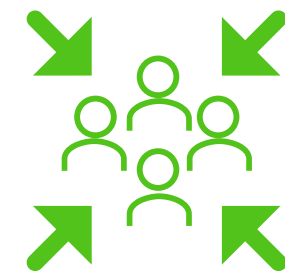

Safe and secure visitor management

Have full control over who enters the building and get the insights you need to protect students, employees and visitors from any emergency.

- Screen every visitor

- Know exactly who is on site

- Improve security with visitor badges
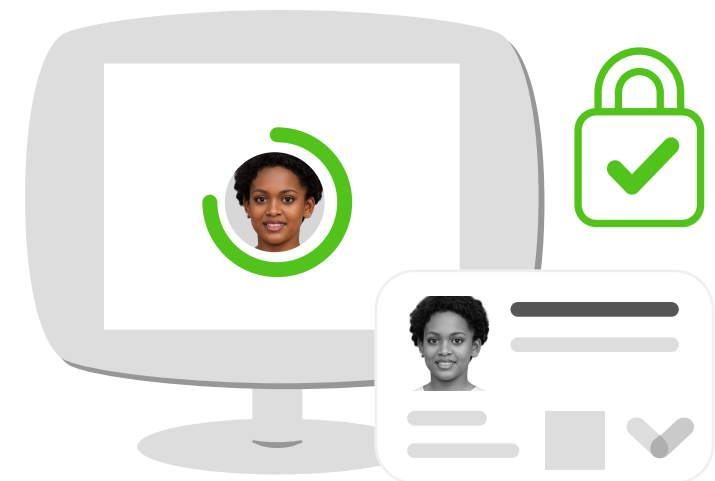

> " Sign In App has improved the process we were using for signing in at each of our schools. Using the companion app has given some time back to our teachers. It's also nice to see an app to is continually developing and improving. I look forward to see some of the new features down the road. "

Employee and contractor sign in

Transform the employee sign in experience, measure staff attendance and hours and collect the information you need. Ensure safety, control access and keep a record of agreed terms and policies.
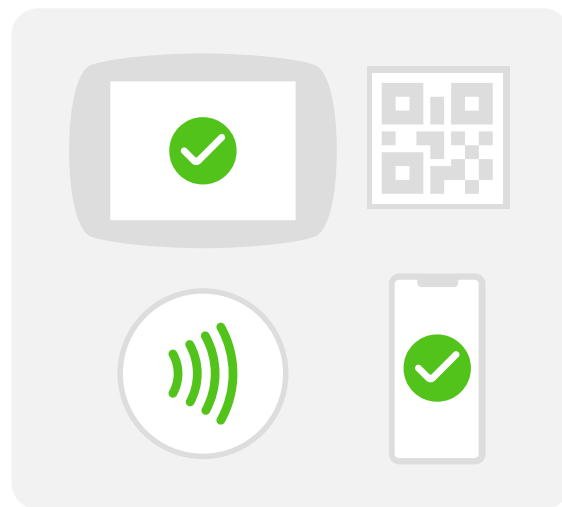

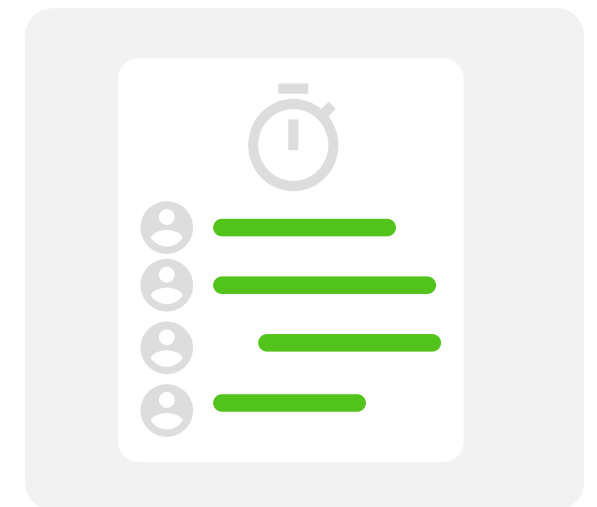

Sign in quickly from an iPad, smartphone, QR code or RFID.

Allow employees to sign in on-site and remotely.

Sync with Azure AD, Google Workspace and MIS systems.

Produce timesheet reports and ensure employee safety.

Configure Sign In App to suit your school

The sign in process can be customized for each group type to provide a streamlined experience.
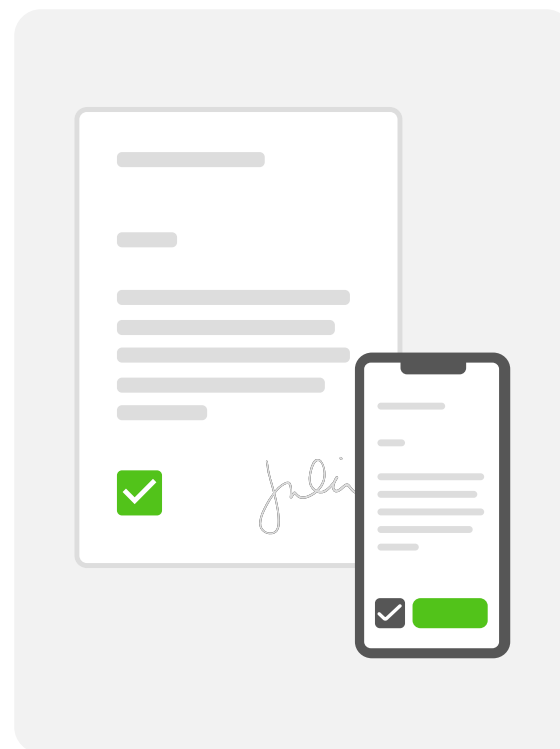

Ensure visitors and staff read and accept important agreements and store securely in the online portal.

Add custom data fields and tailor them to each type of visitor to gather the data you need.
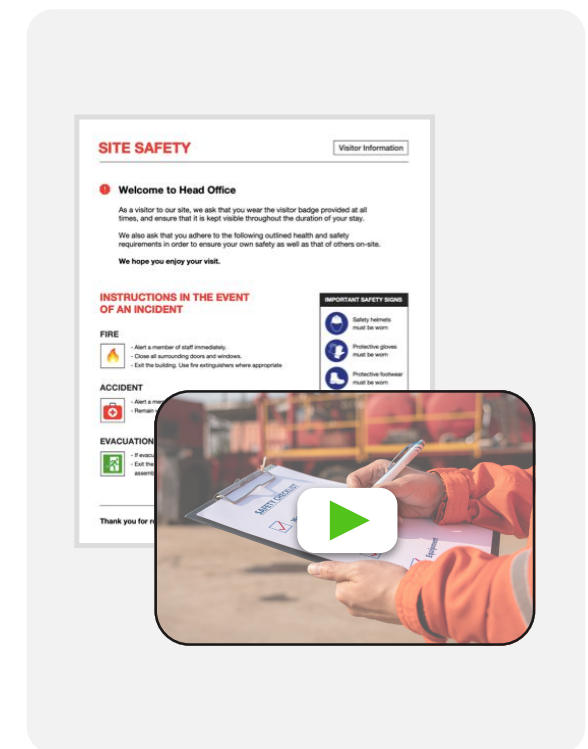

Share important information such as health & safety, safeguarding and privacy policies.

Intelligent integrations with existing systems

Intelligent connections with your existing systems makes it easy to keep your student and staff data in sync and always up-to-date.

- Sync with ClassLink
- Azure AD and Google Workspace
- Our notification tools can also hook into your Slack channels and MS Teams

Always be prepared for emergencies

Ensuring your evacuation report is an accurate reflection of everyone on site is critically important. By signing everyone in via Sign In App, you will always have an accurate, real-time evacuation list on-hand when and where you need it, on any mobile device.

- Timed roll calls shared across devices
- Add comments in real time
- Manage multiple evacuation points
- Review past evacuations
- Filter by personal field

Safety+
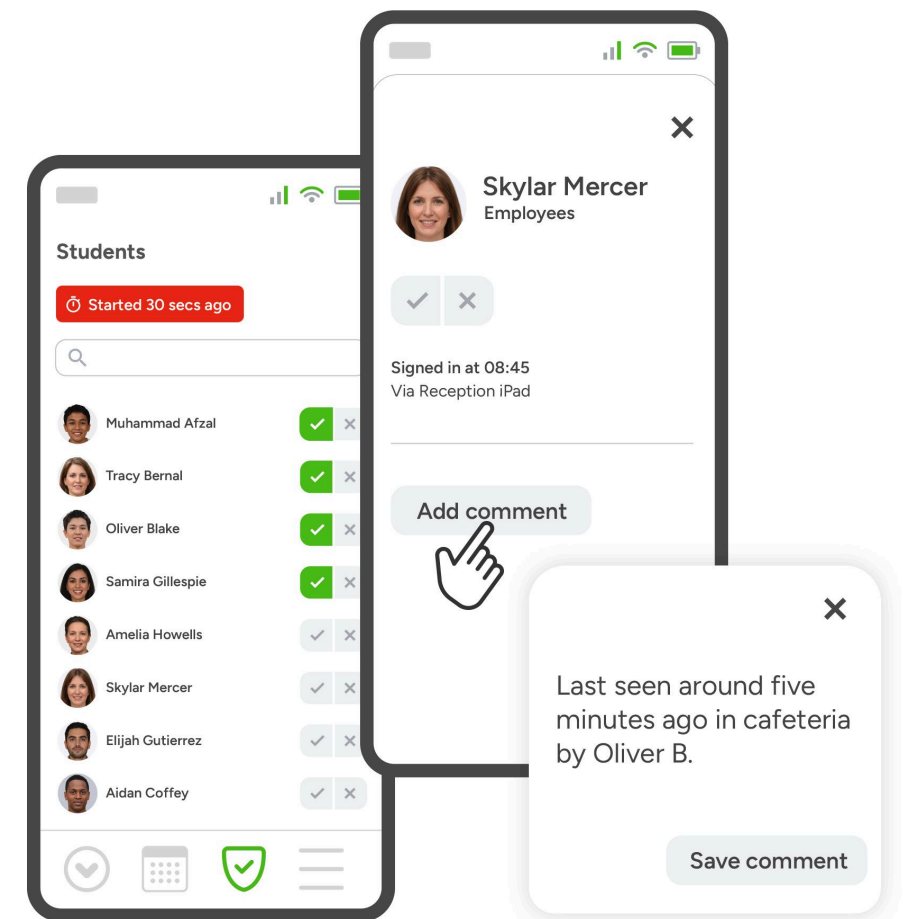

Free Companion app for smartphones

Available on iPhone and Android. Enable your employees and students to sign in from anywhere straight from their smartphone. Sign in, join shared evacuation reports, pre-register guests and book desks & meeting rooms.

- Sign in on site or remotely

- Auto sign in when you arrive on site BETA

- Create and join shared evacuation reports

- View sign in history and hours

- Book desks and meeting rooms with Spaces ADD-ON
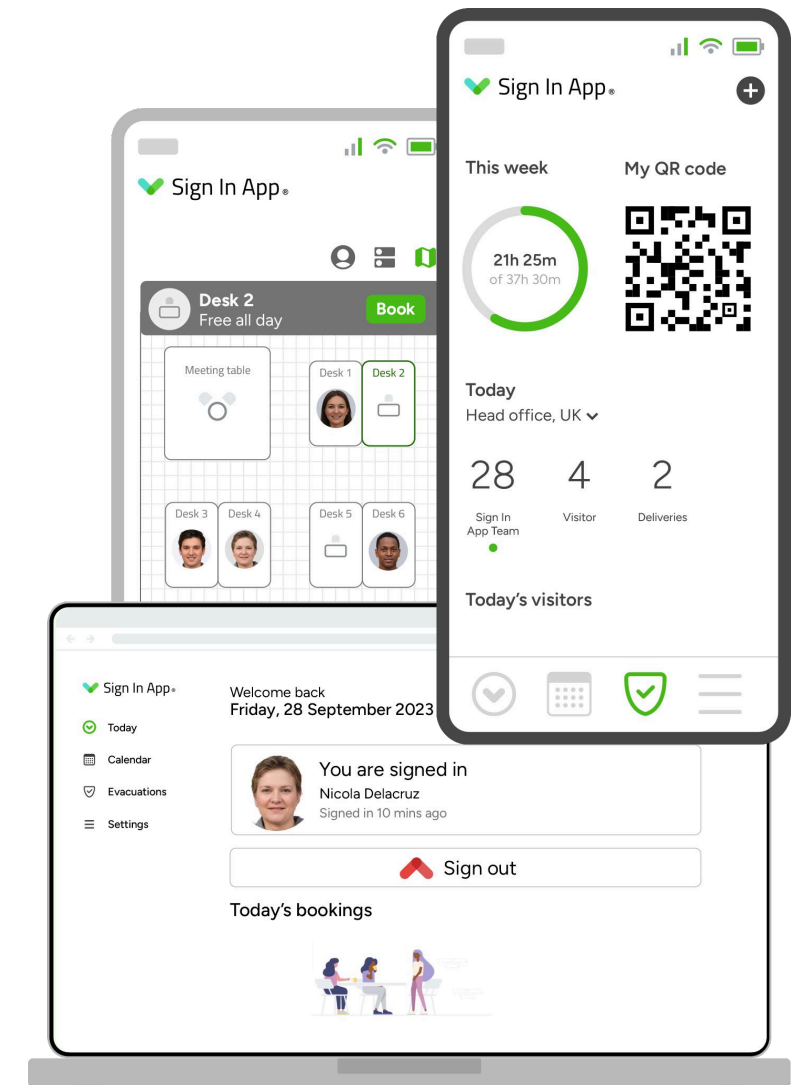

The smart way to book desks, meeting rooms and more

Embrace the hybrid workforce and manage reduced site capacity with Spaces - the smart and flexible desk and meeting room booking add-on for Sign In App.

- Make any space bookable

- Reserve spaces from your phone

- Recreate layout or upload a floor plan
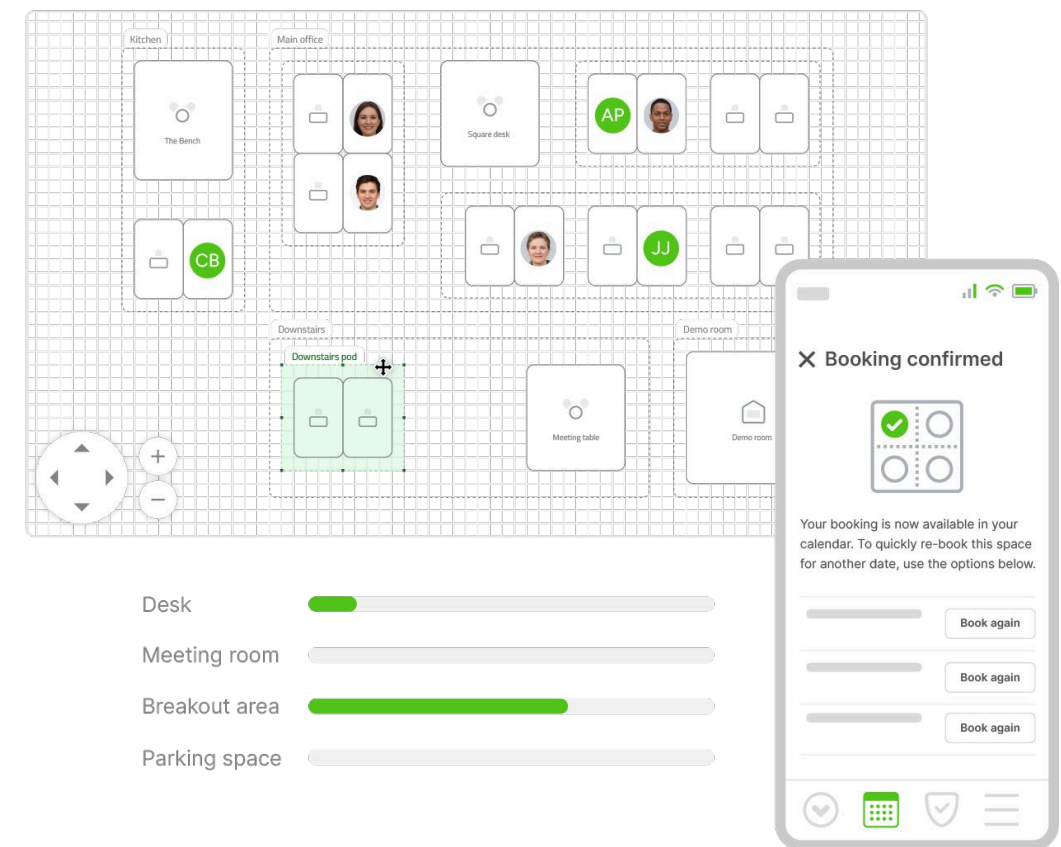

Spaces is an add-on solution available in our Enhanced and Pro plans.

Secure and scalable appointment scheduling

From parent-teacher conferences to mentoring sessions and urgent wellbeing/counselling appointments, transform the appointment scheduling process with online booking and automated visitor pre-registrations.
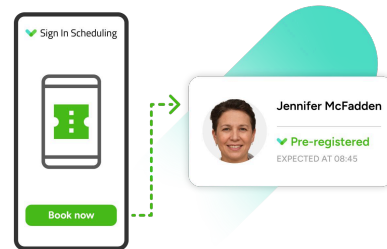

- Offer a seamless booking experience

- Improve productivity and reduce admin time

- 100% secure and compliant

- Manage multiple sites from one central portal
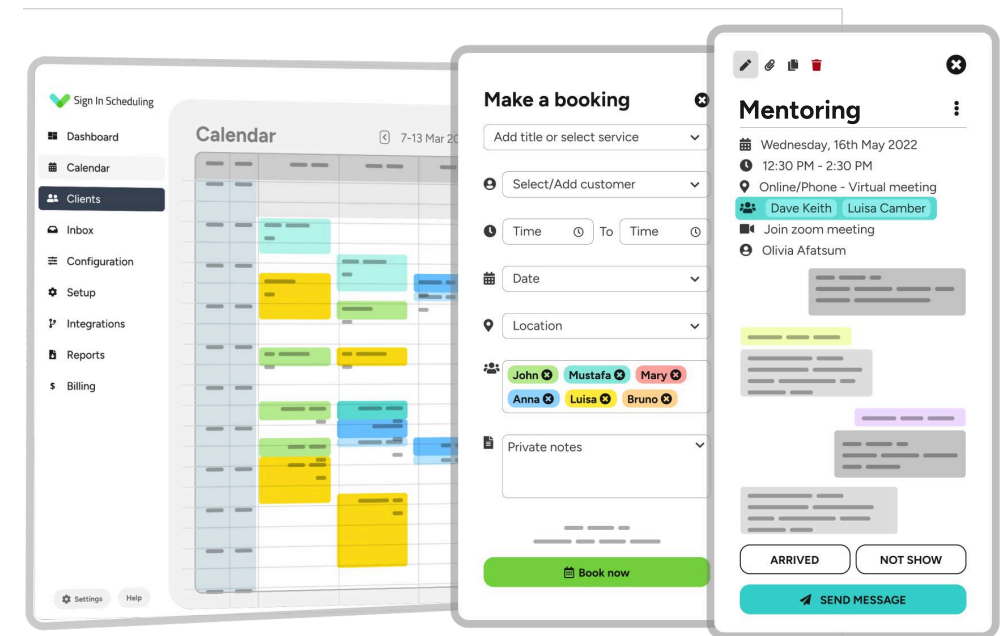

📅 Scheduling

Scheduling is an add-on solution available in our Enhanced and Pro plans.

📅 **Scheduling**

Automatic pre-registrations

Once an appointment is booked, your visitor will be pre-registered in Sign In App for seamless sign in.

Fully customisable

Sign In Scheduling can be customized to suit your needs and you can add your branding to booking pages.
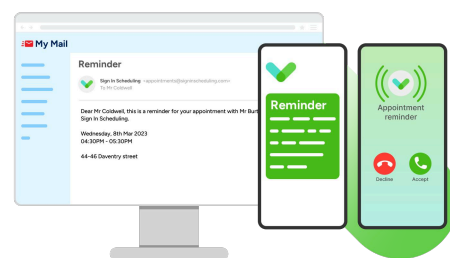

Accessible to all

Fully accessible appointment booking that's WCAG certified and available across channels.

Data insights that drive change

Provide multi-department usage with booking pages for each faculty and one-to-ones that are easy to set up.

Flexible timekeeping for the way you work

Transform your visitor management system into a robust timekeeping tool, including working hours, absence reports and time tracking - all without sacrificing safety and compliance.
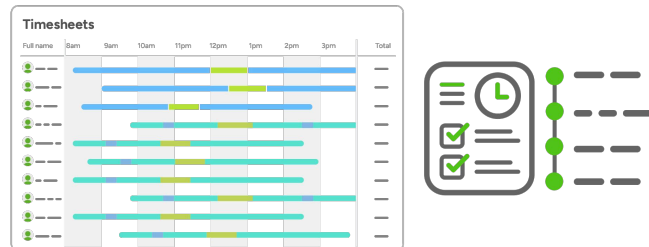

- Say goodbye to manual spreadsheets and paperwork

- Know when employees are scheduled to work

- Improve working hours accuracy for payroll

- Reduce the cost of unscheduled absenteeism

Time & Attendance is an add-on solution available in our Enhanced and Pro plans.
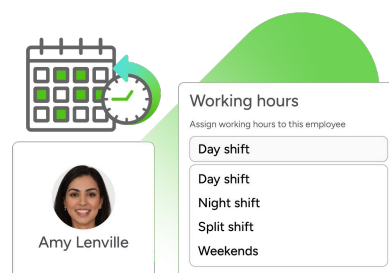

Time & Attendance

Know when employees are on the clock

Activity statuses enable you to differentiate time spent working/on breaks/lunch while signed into a physical location.

Easily manage multiple working patterns

Working Hours enables you to create and assign work patterns, defining fixed/flexible working hours and set break times.

Absence management made easy

Enable employees to request changes to their working hours and record absences. Review changes and export timesheet reports from the online portal.
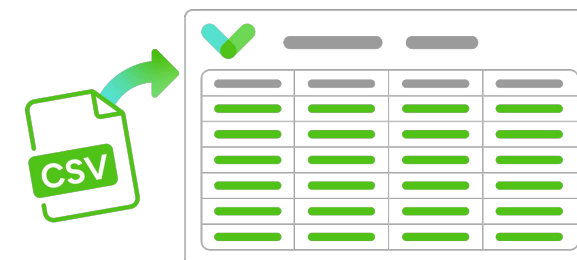

Flexible, advanced reporting

Time & Attendance introduces more customisation options for timesheets and advanced export options, providing better compatibility with payroll CSV imports.

Replace outdated Excel SCR spreadsheets

Streamline school safety with simple, secure and compliant solutions for controlling access and maintaining your Single Central Record. Automatically prevent visitors from completing their sign in if they do not have the required documentation and send notifications for further action.

- Have full control over who can enter

- Easily onboard new employees

- Manage data across multiple sites

- Save time with an automated solution

Central Record

Central Record is an add-on solution available in our Enhanced and Pro plans.
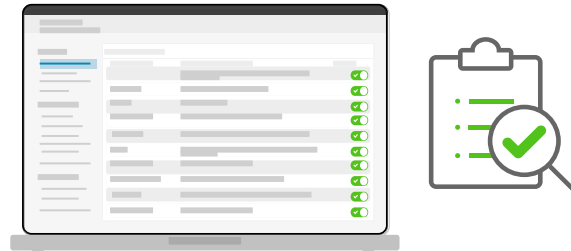

Stay informed and compliant
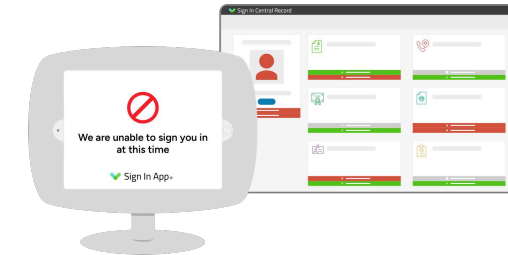

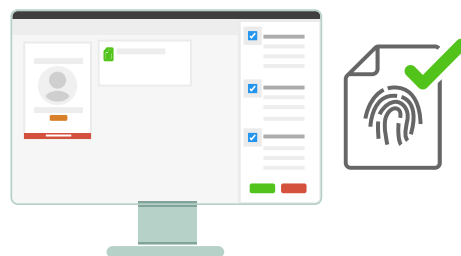

With automatic updates you can rest assured that your process is fully in line with industry requirements and ensure you comply with the latest guidelines.

Prevent further entry

Sign In App can reject sign ins if an individual doesn't have the required documents in Sign In Central Record and notifications can be sent for further action.

Enhanced DBS checks

Capture enhanced DBS checks and upload, list and assign other important documents to individual staff members such as copies of appropriate Right to Work documents.
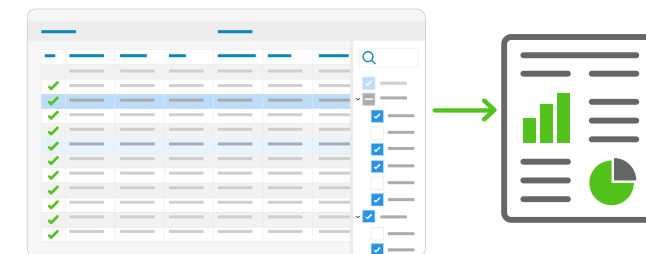

Create custom reports

Quickly identify individuals without the relevant checks with intuitive dashboards and profile warnings. Easily export custom reports for Inspectors.

Powerful multi-site management in one easy-to-use portal

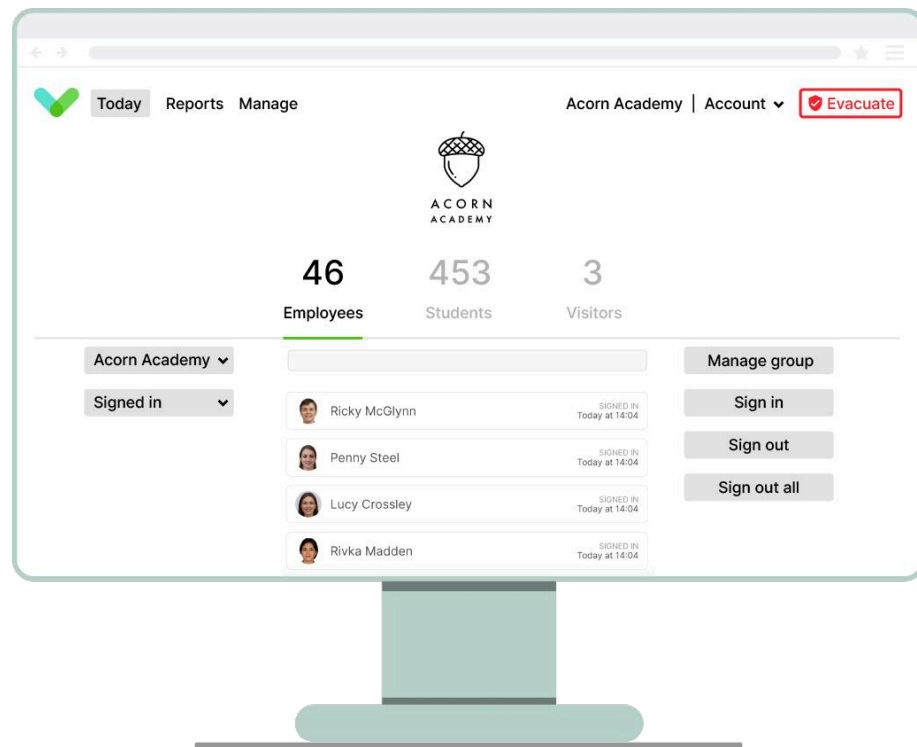

Powerful multi-site management in one easy to use online portal. Quickly see who is signed into each building and manage configuration options centrally

- No software to install

- See who's signed in and run reports

- Set up and manage sites centrally

- Manage portal user access

A secure, global infrastructure built around data privacy

Sign In App is committed to ensuring the security of your data. We are GDPR compliant and ISO27001 certified for Information Security Management.
